EDUCATIONS -

Bachelor of Engineering (B.E.) in Computer Engineering — Datta Meghe College of Engineering
2023–2027 | CGPA: 9.04

Senior Secondary (XII), HSC | T.H. Wajekar Junior College | 2023 | 83.33%

Secondary (X), SSC | T.H. Wajekar Junior College | 2021 | 96.00%

TECHNICAL SKILLS -

Programming Languages: C, Python, JavaScript

Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Tools & IDEs: Git, GitHub, VS Code, Vercel, Render

EXPERIENCE -

CNC Web World | Front End Development Intern | Jun 2025 – NOV2025

- **Designed and developed** user-friendly, responsive, and dynamic web interfaces using HTML5, CSS3, and JavaScript.
 - **Built** reusable UI components and optimized website performance for seamless cross-device experiences.
 - **Collaborated** with designers and backend teams to integrate RESTful APIs and implement modern UI/UX principles.
 - **Delivered** scalable solutions by ensuring high-quality coding standards and browser compatibility.
-

PROJECTS -

Vein Link – Strategic Blood Mobilization System

| React.js, MERN Stack, Tailwind CSS, Socket.IO, jsPDF, Nodemailer |

[Live_Link](#) | [GitHub](#)

- **Developed** a real-time blood mobilization platform connecting donors and hospitals through geospatial tracking and emergency response workflows.
 - **Designed** AI-driven blood stock forecasting, automated eligibility reminders, and optimized inventory tracking, and campaign management.
 - **Implemented** real-time communication using Socket.IO for emergency broadcasts, donor notifications, and live location synchronization.
 - **Integrated** QR-code based donor identity verification, digital certificates, eligibility tracking, and donation history management.
 - **Designed** AI-driven blood stock forecasting, automated eligibility reminders, and optimized API interactions to enhance platform performance and user experience.
-

AppointHQ – Service Scheduling Platform

React.js, Redux Toolkit, MERN Stack, JWT |

[Live_Link](#) | [GitHub](#)

- **Developed** responsive and reusable React components for service listings, booking flows, and user dashboards.
 - **Implemented** centralized state management using **Redux Toolkit** to manage authentication state and booking data.
 - **Integrated** secure frontend authentication flows using **JWT**, enabling role-based UI rendering for Admin, Organizer, and Customer roles.
 - **Built** QR-code based check-in interface for organizers, improving on-site user experience.
 - **Optimized** API data consumption and component re-renders to improve frontend performance
-

ACHIEVEMENTS & ACTIVITIES -

- **Google Student Ambassador:** Promoted Google technologies and led community workshops and networking events.
- **Computer Society of India (CSI):** Member of both the Sponsorship and Technical & Development teams.
